

ENVIRONMENTAL POLICY

T. A. Savery & Co. Ltd and sub companies is committed to conducting its business operations in a manner that safeguards natural resources and the environment whilst ensuring T.A Savery meets its legal and social obligations for itself and its stakeholders.

This policy is based on ISO 14001:2015 requirements with emphasis on the following aspects:

- Maintain a co-operative and constructive working relationship with legislative regulators and comply with all applicable legislation.
- Consult with customers, employees and other stakeholders with an interest in the environment.
- Evaluate business operations to eliminate or minimize pollution in all forms.
- Continue to manufacture and distribute our products with as little impact on the environment through the efficient use of energy and natural resources.
- Monitor key Environmental performance criteria, conduct compliance audits and take the necessary action to continuously improve our environmental performance.
- Promoting the use of T.A Savery overhaul and servicing activities to extend product life cycles of existing units; maximising product life and minimising environmental impact(s).
- Promote understanding and provide facilities to recycle materials internally to maximise use of resource with all sites of the business.

Directors, Managers and Supervisors are responsible for making each employee aware of this policy. All employees are responsible for conducting their operations and procedures in accordance with this policy.
