

## Maintenance Engineer

**Competitive Salary + pension + 33 days holiday (including Bank Holidays)**

**Working Hours:** Monday to Thursday 7.30am - 5.00pm and Friday's 7.30am - 1.30pm.

OLEO International a trading division of TA Savery & Co Limited has an exciting opportunity for an experienced Maintenance Engineer to join our maintenance team based in Coventry.

As a company we are a World leader in the design and manufacture of safety critical equipment used in a wide range of applications in the Rail, Elevator and Industrial sectors.

### **Overall Purpose of the Role:**

You will be working safely as part of a team of multi skilled Engineers sharing the responsibility of maintaining and repairing all plant and equipment across the manufacturing facility. You will be tasked with providing a focal point of maintenance, facilities and engineering services along with promoting continuous improvement activities throughout the company.

### **Duties & Responsibilities:**

- Carry out electro / mechanical reactive, planned and preventative maintenance.
- Participate in morning production meetings, communicating issues raised back to the Maintenance Manager.
- Rationalise and maintain complete maintenance records, to eliminate duplication and advise on maintenance requirements for all planning work.
- Inspection, testing and repair or replacement of failed components as required on an emergency or scheduled basis.
- Continually maintain machinery critical spares and support stock at required levels.
- Adhere to company ISO quality and Health & Safety procedures.
- Liaise with third party contractors, issuing permits to work where required.

### **Qualifications & Experience:**

- Possess an engineering related qualification.
- 17th or 18th edition wiring certifications.
- Electrical installation qualifications would be advantageous.
- Possess electrical and mechanical maintenance engineering experience.
- Experienced in repairing and maintaining electrical, hydraulic, mechanical and pneumatic machinery.
- Confident in carrying out corrective / preventative and reactive maintenance.
- Experienced in attending to machine breakdowns in a timely and efficient manner, keeping downtime to a minimum.
- Previous or current experience of maintaining / repairing CNC machines would be highly advantageous.

- Fault finding experience.
- Counterbalance & Reach Truck Licences (desirable).
- Ability to work at height and hold a valid IPAF / MEWP licenses.
